Holger Nielsen (right) in his factory, ca. 1949

The first Vipp pedal bin, 1939
The latest Vipp pedal bin, 2022

Marie's hairdressing salon, 1939

Experience Vipp

Jette Egelund and her mother Marie, ca 1960

IN MY FATHER'S FOOTSTEPS. "Holger, I need a waste bin for my salon. Can you make me one?" These words mark the beginning of Vipp. The year is 1939 when young Danish craftsman, Holger Nielsen, makes the first Vipp bin in his metal workshop. The bin was a token of love for his wife Marie's hairdressing salon, never a business idea. But soon word gets around. After experiencing the sturdy, pedal-controlled bin, the ladies in the salon make sure that the bin finds its way into their husbands' dental and medical clinics. The request for more bins prompts Holger to start production on a larger scale. When Holger passes away in the beginning of the nineties, his daughter Jette inherits the bin and a metal workshop in the backyard of her childhood home in Randers, Jutland. She cannot bear to see her father's legacy vanish. For 50 years the bin has been a prerogative for the professional market, but Jette's dream is to cross the threshold to private homes and letting people experience the bin at home. Jette's two children, Kasper and Sofie, decide to join their mother in the quest of turning a bin into a brand. When the bin gets accepted into the permanent design and architecture collection at MoMA in New York, the family knows that they are on the right track. Since then, the classic Vipp pedal bin has been supplemented by a full-blown design universe of accessories, furniture, lighting, and complete kitchen systems.

Deviating from a rigorous metal tradition, the Vipp design language has gotten a tactile treatment in the effort of shaping a design universe rich in materiality. Each new product enters the Vipp collection with the same ambition in mind – offering a refined, tactile experience with genuine design objects, timeless in both aesthetics and function. In other words, products with staying power.

"My father was a craftsman, not a salesman. He could not have imagined that the pedal bin he designed in 1939 would eventually sow the seed for a full-blown design universe including a hotel and supper club."

— Jette Egelund, 2nd generation Vipp owner

A supper club at Vipp Pencil Factory

SPEND A NIGHT WITH VIPP. Vipp has upscaled the product experience by venturing into larger architecture and spatial design projects. Under the umbrella of Vipp Hotel a series of one-room wonders unfold and offer uniquely curated rooms at destinations out of the ordinary. Check-in and tune out in the Vipp Shelter on a Swedish lake or opt for farm-life feel in a converted Danish farmhouse from 1775. With a growing portfolio of hotel destinations, guests are invited to experience Vipp in its natural habitat.

LESS VIP. MORE VIPP. A new sensory dimension has been added to the Vipp experience. Catering to eyes, ears, and tastebuds, the Vipp Supper Club is the social side of Vipp. People coming together in venues that are quite a mouthful in their own. We have sharpened the pencil and drawn up our first supper club destination in a former factory. In a Copenhagen backyard, Vipp Pencil Factory materialises a curious mix of food, art, design, architecture, and music. Talented chefs from around the world serve fabulous food on the plate and food for thought in the conversation.

"We have a strong opposition towards the many seasonal collections found in our business. When we introduce new additions to our collection, they are here to stay."

— Kasper Egelund, CEO and 3rd generation Vipp owner

Curated collection

Vipp's in-house design team has developed a carefully curated collection of furniture where a tight edit of upholsteries are predefined and selected due their aesthetic and functional attributes. Instead of offering endless variants, we believe in a less but better approach allowing us to bring unique products to market and safeguarding a streamlined aesthetic vision.

Material matters

Vipp furniture and lighting pieces often evolve from our architectural endeavours including the Vipp Hotel and supper club venues. Designing these venues has prompted our desire to develop a complete collection of furniture and lighting to inhabit these spaces. Through a tactile approach, a new, softer layer has been added to our trademark material through 80 years – steel. The journey towards a holistic design universe has softened up our palette, welcoming contrasting yet complementing materials to our industrial heritage such as textile, stone, ceramics, glass, and wood into our product development. Yet, our design ethos and processes hold the same refinement and attention to detail whether we shape metal or wood.

DINING ROOM

Chairs · Tables

A scratch on a wooden tabletop or patinated leather on the seat of a dining chair are all traces of daily use, manifested memories. When it comes to our dining room furniture, the ability to age gracefully is revealed by long-term use and defined by the surrounding environment. Shaped from solid materials, the Vipp dining room assortment is designed to withstand the test of time in both function and aesthetics. A dining table featuring a steel frame and a tabletop of either heat-pressed ceramics or dark oak, a slender yet sturdy steel-framed chair, and an additional series of solid oak and padded furniture, the Cabin- and Lodge series, constitutes our take on long-lasting furniture fitted for the dining room.

VIPP451

Vipp Chair

The very first Vipp chair offers a solid, powder-coated or polished aluminium frame with rounded armrests and a small, supportive backrest. Slender armrests continue straight into the discreetly padded backrest, giving the chair an almost airy expression despite of its solid components. The chair is available with textile or leather upholstery.

Details p. 118

Lodge Chair

The Lodge chair presents a moulded soft shell and legs of either light or dark oak. An organic, clam-shaped shell is carried by conical legs of solid oak. The smooth transition from shell to legs is derived from complex design techniques. The Lodge chair can be customised in a curated range of upholsteries.

Details p. 119

VIPP465

Lodge Counter Chair

The Lodge counter chair was originally designed for the V2 kitchen as a comfortable seating option at the kitchen bar extension. As the third chair in the Lodge series, the counter iteration raises up the fully upholstered, moulded shell resting on four long, conical legs. A tubular metal ring binds the dark oak legs together and offers a footrest for long-seated dinners in the kitchen.

Details p. 119

Cabin Chair

The Cabin chair features rounded components of solid oak and a hovering veneer seat.

Meticulous detailing is unveiled in the subtle construction of the chair, demonstrated through the invisible joints that make the chair look as cut in one piece. The Cabin chair is available in light or dark oak with an affixed leather cushion in either sand or black leather.

Details p. 121

VIPP484 & VIPP485

Cabin Counter & Bar Stools

The Cabin counter stool is made for a kitchen counter. The Cabin bar stool is suitable for bar seating. These stools feature rounded components of solid oak and a hovering veneer seat with an affixed cushion in either sand or black leather. A supportive steel footrest ensures stability.

Details p.121

Cabin Round Table

The Cabin round table offers a solid wood base of either light or dark oak. A variety of inimitable stone tops in either grey marble or beige Jura limestone give the opportunity to customise according to aesthetic preferences. Distinct refinement and attention to detail are unveiled through the subtle woodwork of the base and the round, sanded edges of the tabletop available in either Ø130 or Ø150.

Details p. 123

S

VIPP971 & VIPP972

Tables

The tables feature a solid steel frame and carries a tabletop of either heat pressed ceramics or chevron-patterned dark oak. The rounded edges and hovering tabletop provide a soft and light expression to the sturdy components. A custom designed extension plate is available. The tables are available in two sizes.

Details p. 124

LIVING ROOM

Sofas · Lounge chairs · Foot stool · Neck rest · Pouf · Side table · Coffee tables · Shelves · Cabinet

We come here to retreat. We come here to gather. Alone or together, our collection of furniture for the living room enables individual sentiments of home. Whether opting for small seating or an extensive lounger, the modular elements of the Vipp sofa system allow for customised comfort. A predefined selection of high-quality upholstery is available for personalisation. The powder-coated steel frame of the two sofas, Loft and Chimney, is a recurring element on the Vipp lounge chair and the trio of coffee tables. The Lodge series and Cabin series manifest Vipp's venture into the furniture category and desire to add a new tactile dimension to Vipp's traditionally steel-born universe. In its totality, the Vipp furniture collection unites sturdy functionality with tender tactility.

Loft Sofa

Named after Vipp Loft, our 2nd hotel room, the Loft sofa features a wide, angular shape with a wood and steel construction, carried by a slender frame of powder-coated steel. Foam together with a mix of polyfibre are wrapped around a solid birch and wooden interior frame. Its modular nature allows for individualised design solutions. Five carefully selected upholsteries are available on the Vipp Loft sofa that can be composed of up to 9 different units. One cushion per unit is included.

VIPP456

Lounge Chair

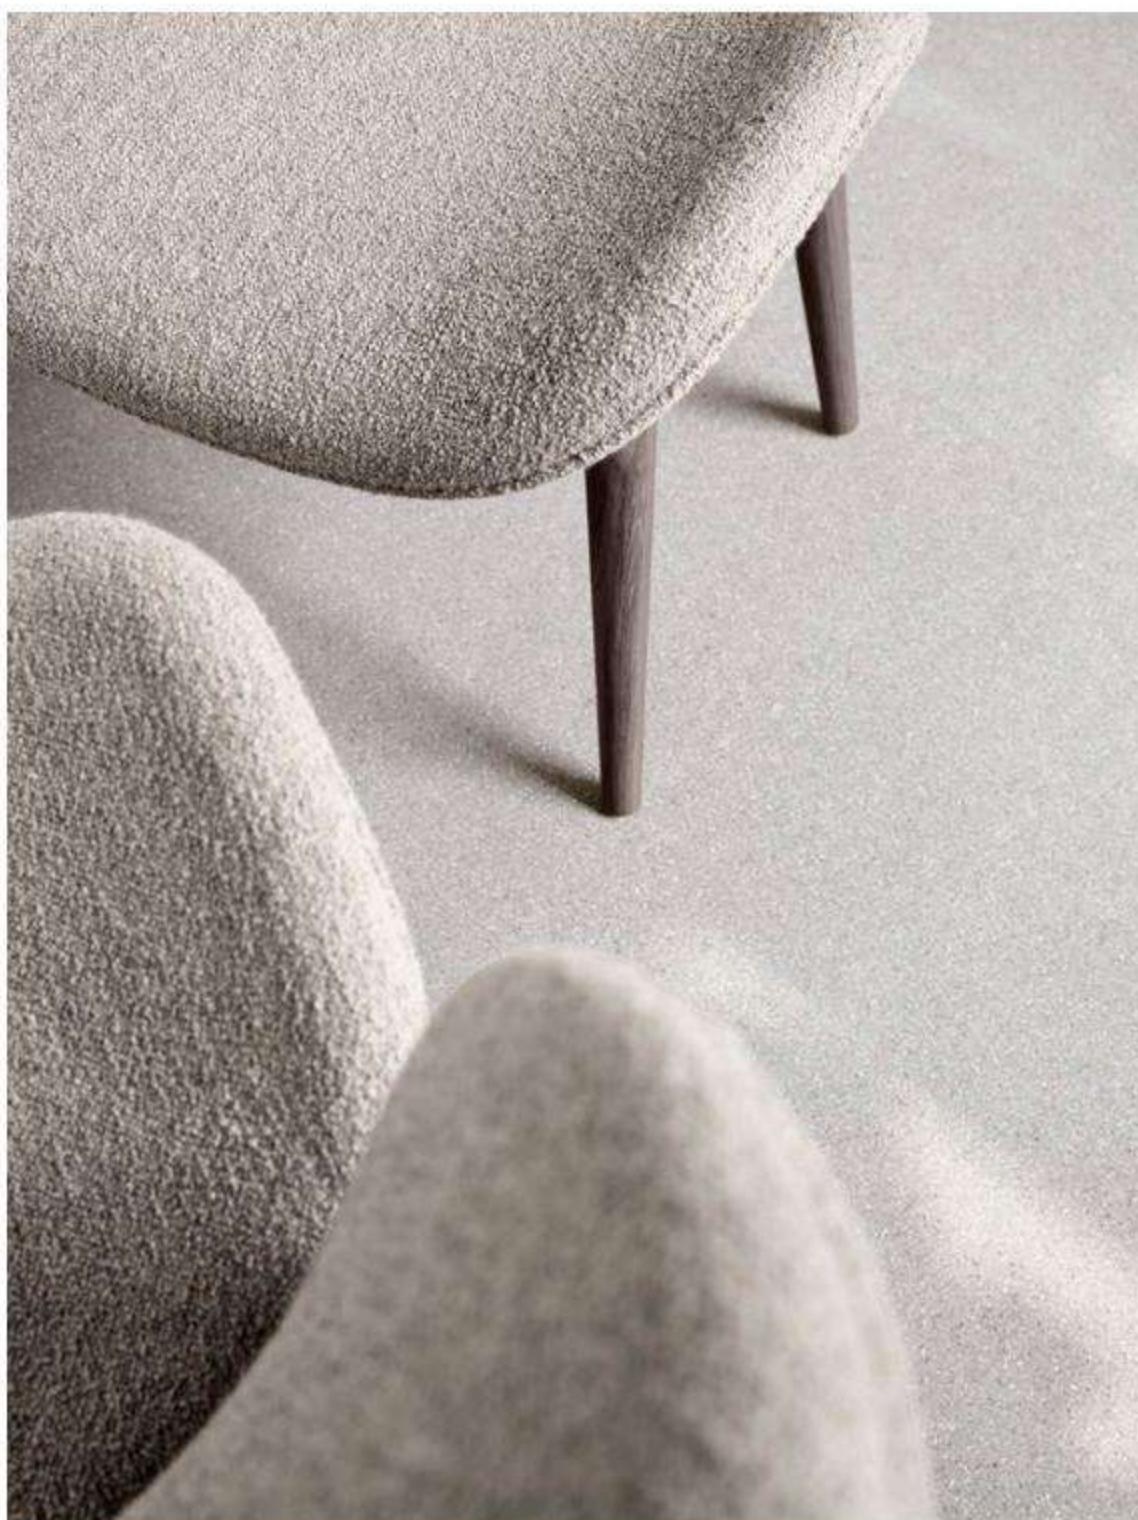

Inspired by the monochrome architecture and interior of the Vipp Shelter, the lounge chair highlights similar attributes expressed through the choice of solid materials and dark tones of the leather upholstery. Featuring a powder-coated aluminium frame with padded seat, arm- and backrest, the lounge chair is characterised by the functional requirements of optimal comfort and solidness.

Details p. 119

VIPP466

Lodge Lounge Chair

The Lodge lounge chair features a moulded soft shell and legs of light or dark oak. The comfortably padded foam shell is designed to surround the body like a glove, while the backrest features a springy flexibility, ideal for long seating sessions. A neck rest and foot stool are available for an enhanced seating experience.

Details p. 120

Lodge Foot Stool

The Lodge foot stool is a comfortable addition to extend the seating experience of the Lodge lounge chair. With a corresponding design, the Lodge foot stool is available in carefully curated upholsteries.

Details p. 120

VIPP468

Lodge Neck Rest

The Lodge neck rest is a customised, retrofitted pillow for the Lodge lounge chair. With its cylinder shape and soft upholstery, the neck rest provides an enhanced seating experience. A heavy aluminium bar is attached to slim, adjustable straps for easy de- and attachment. This distinctive design ensures ergonomic comfort, while keeping the neck rest in place.

Details p. 120

VIPP488

Cabin Lounge Chair

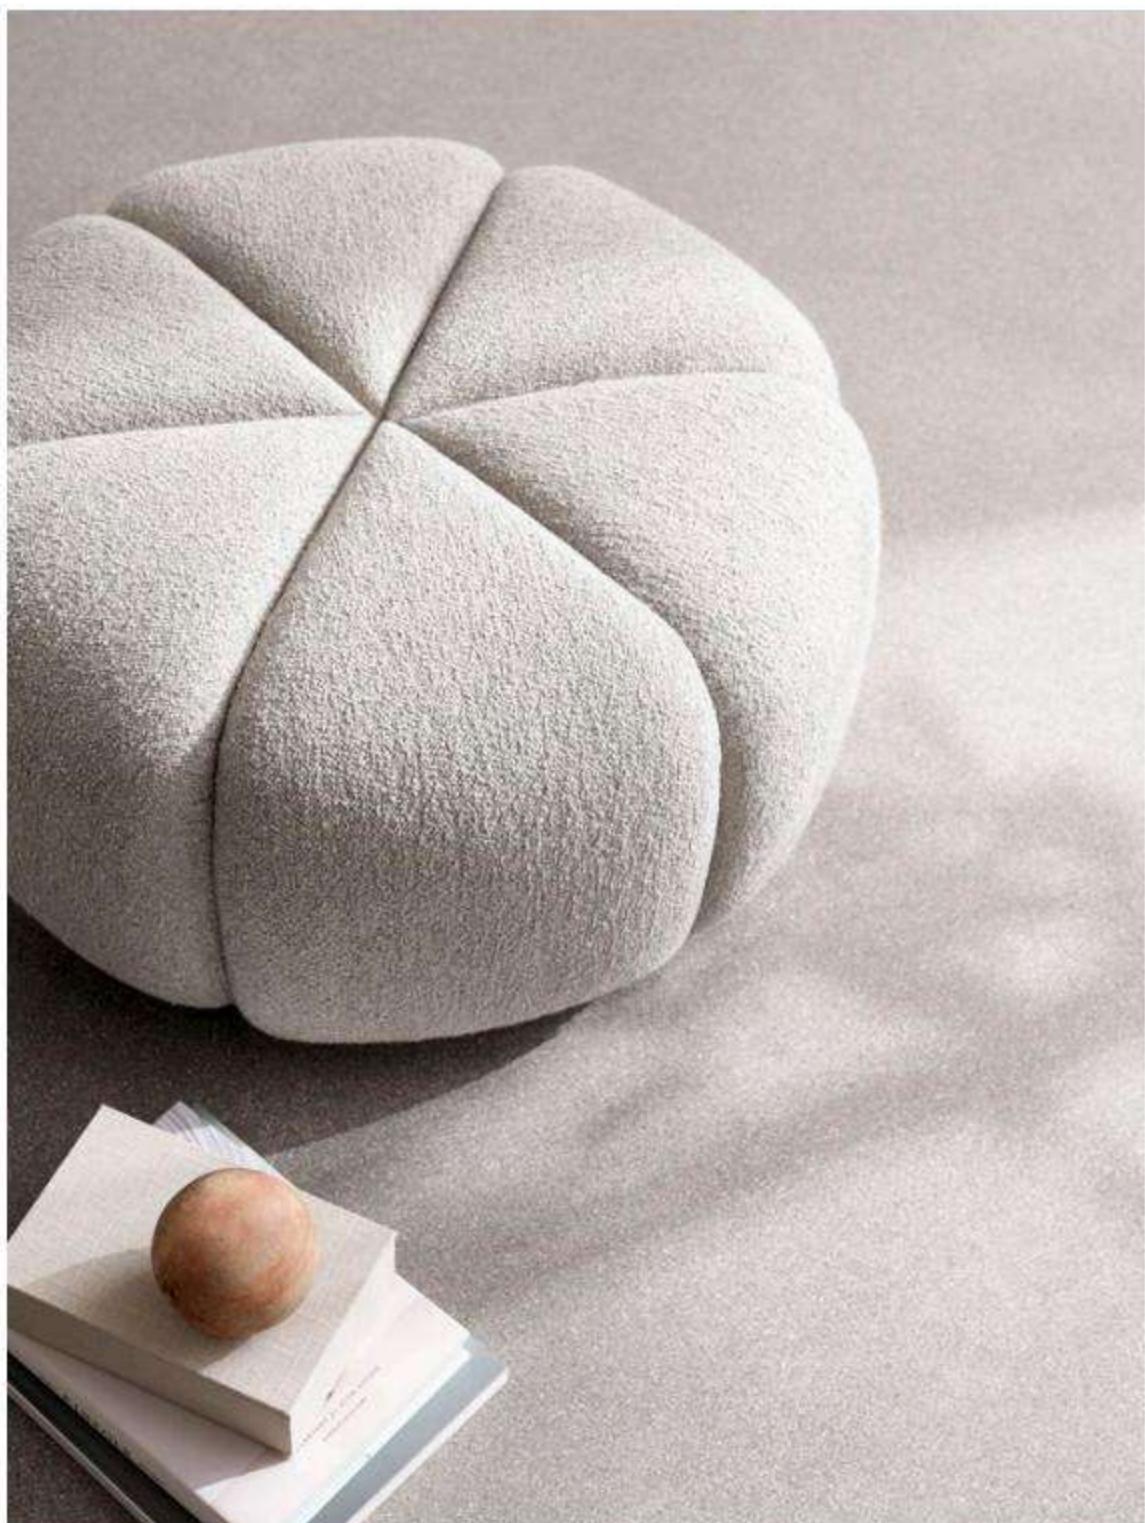

A new iteration of the Cabin series, the Cabin Lounge chair marries oak, leather, and paper cord. Designed for the lounge area, the broad and double-padded, fixed seat cushion in leather invites for relaxation. Slender armrests and legs frame the slightly bending seat and backrest while adding an airy expression to the solid oak. The light look is enhanced by the perforated pattern of tactile-rich, woven paper cord.

Details p. 121

VIPP655

Pouf

The pouf is a free-standing footrest or seating option suitable for the living room or lounge area. The six-piece construction adds a geometric expression to the organic, round shape. Durable cold foam is moulded around an interior wooden frame. Available in an off-white, bouclé upholstery.

Details p. 120

Side Table

The side table features a slim frame of powder-coated aluminium with a three-piece veneer tabletop. Due to its small size and slender silhouette, the side table can easily be placed in multiple settings. The minimalist design is determined by the dogmas of functionality, durable materials, and refined craftsmanship.

Details p. 122

VIPP423 & VIPP425

Coffee Tables

The coffee tables feature a three-legged frame of black powder-coated aluminium and a hovering top of either marble or dark oak. The mix of organic stoneware or wood contrasts the hardness of the steel frame. The coffee tables can be displayed in solitary or paired for a complete coffee table composition. Available in two sizes.

Details p. 122

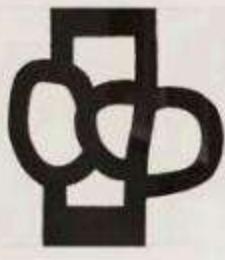

Chimney Cabinet

The Chimney cabinet is a standalone storage solution. 4 open shelves for items on display meet 2 closed cupboards for hidden objects in a purposely designed asymmetry. Cupboard fronts in fluted, anodized aluminium work as a tactile contrast to the carved solid oak frame and the Pietra Grey marble insertion, topping the cupboard. The dark oak structure rests on spindly metal legs offering a light expression to a cabinet that can carry heavy weight.

Details p. 126

VIPP478 & VIPP479

Chimney Shelves

Vipp continues its trip into the woods with a duo of dark oak shelves. Available in 60 and 120 cm of length, the two shelves hold the same depth and can be combined in countless, personalised compositions. The shelf plate is mounted on a narrow, vertical oak panel and supported by two discreet shelf brackets.

Details p. 125 & 126

Vipp581 Paper Floor Lamp
p. 83

LIGHTING

Desk · Wall · Floor · Pendants · Table · Outdoor

Illumination. A simple, yet important element to make you feel more at ease or awake.

The atmosphere of a room can be defined by good or bad lighting, both in forms of intensity and placement. Nestled in our industrial design tradition, our ever-growing lamp series prides to cover all needs for optimal lighting with options for the table, floor, wall, ceiling and even outdoors. To the array of classic Vipp metal lamps with perforated shells, we now add a new layer of tactile tenderness to our lighting scheme.

Textured paper shades ignite the collection with a soft and cosy lighting option inspired by Asian paper craft and lantern traditions. The Sculpture table lamp doubles as a decorative sculpture shaped in glass and solid marble.

Desk Lamp

The desk lamp is suitable as a work lamp for the office or the home. Equipped with an adjustable arm, finger screws, and a solid base for stability, the steel lamp shade is designed with 1539 perforations, allowing for soft light to be let out through the solid surface. The lamp comes with self-standing support and an insert variant is available to be installed directly in a desk.

Details p. 128

VIPP522 & VIPP523

Wall Lamps

The wall lamp is a versatile wall light functional for both private and public spaces. Available in a long and short arm version, the lamp features a flexible, adjustable arm for focused lighting and a perforated lampshade for a pleasant diffusion of light. An internal spring ensures a proper posture while finger screws in stainless steel add support. The braided power cord is internally routed in the lamp, only peeking out through the joints.

Details p. 128 & 129

VIPP524

Wall Spot

The wall spot is a functional wall light ideal for the bathroom, hallway, kitchen or living room. It features a perforated lamp shade and matte glass for a pleasant diffusion of light. Even though it is the smallest of the Vipp lamps, the wall spot is as versatile as it is functional, shining a balanced light on every space. Available in black, white or warm grey.

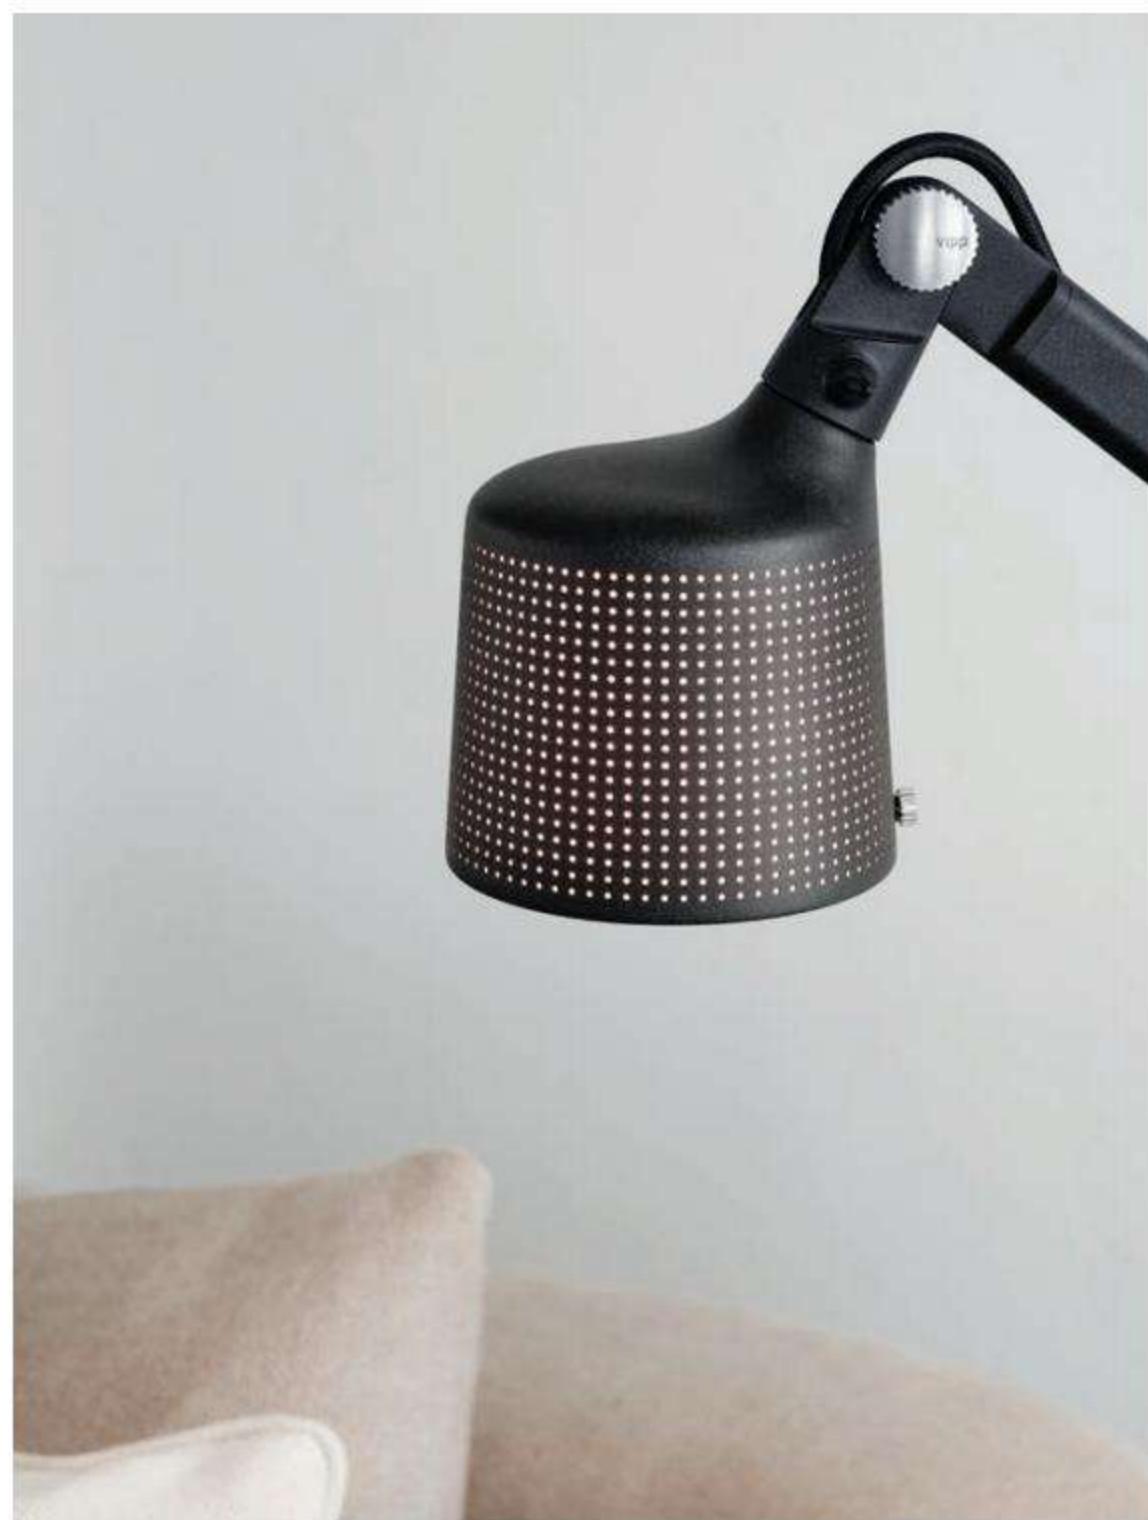

Details p. 129

Floor Reading Lamp

The floor reading lamp is a reading light ideal for the living room. Fitted with details such as an adjustable arm for focused lighting, the lamp also features a perforated shade and matte glass for a balanced diffusion of light. Its light and slender silhouette easily fits into any reading corner.

Details p. 130

Pendants

The pendants offer convenient lighting above a table or countertop. Matte glass accompanies the perforated lamp shade, ensuring a soft diffusion of light. The rounded design and soft fabric cords bring softness to hardy materials. The easily accessible height adjustment of the two-sized pendant supports the adaptation and flexibility in everyday use.

Details p. 130

Table Lamp

The table lamp is well-suited for the living room, bedroom, or office space. A reflector inside the lamp shade guides the light straight downwards. Accompanied by a pull string, matte glass, and a perforated lamp shade, this lamp offers a cosy light and an analog feel.

Details p. 131

VIPP551

Outdoor Wall Spot

The outdoor wall spot is custom-made for outdoor facades. Organically shaped from industrial materials, the simple design of the outdoor wall spot complements both classic as well as contemporary architecture. It is made from powder-coated aluminium and stainless steel with matte glass and a perforated lamp shade. The lamp is also suitable for indoor use. Available in light grey or black.

Details p. 131

VIPP581

Paper Floor Lamp

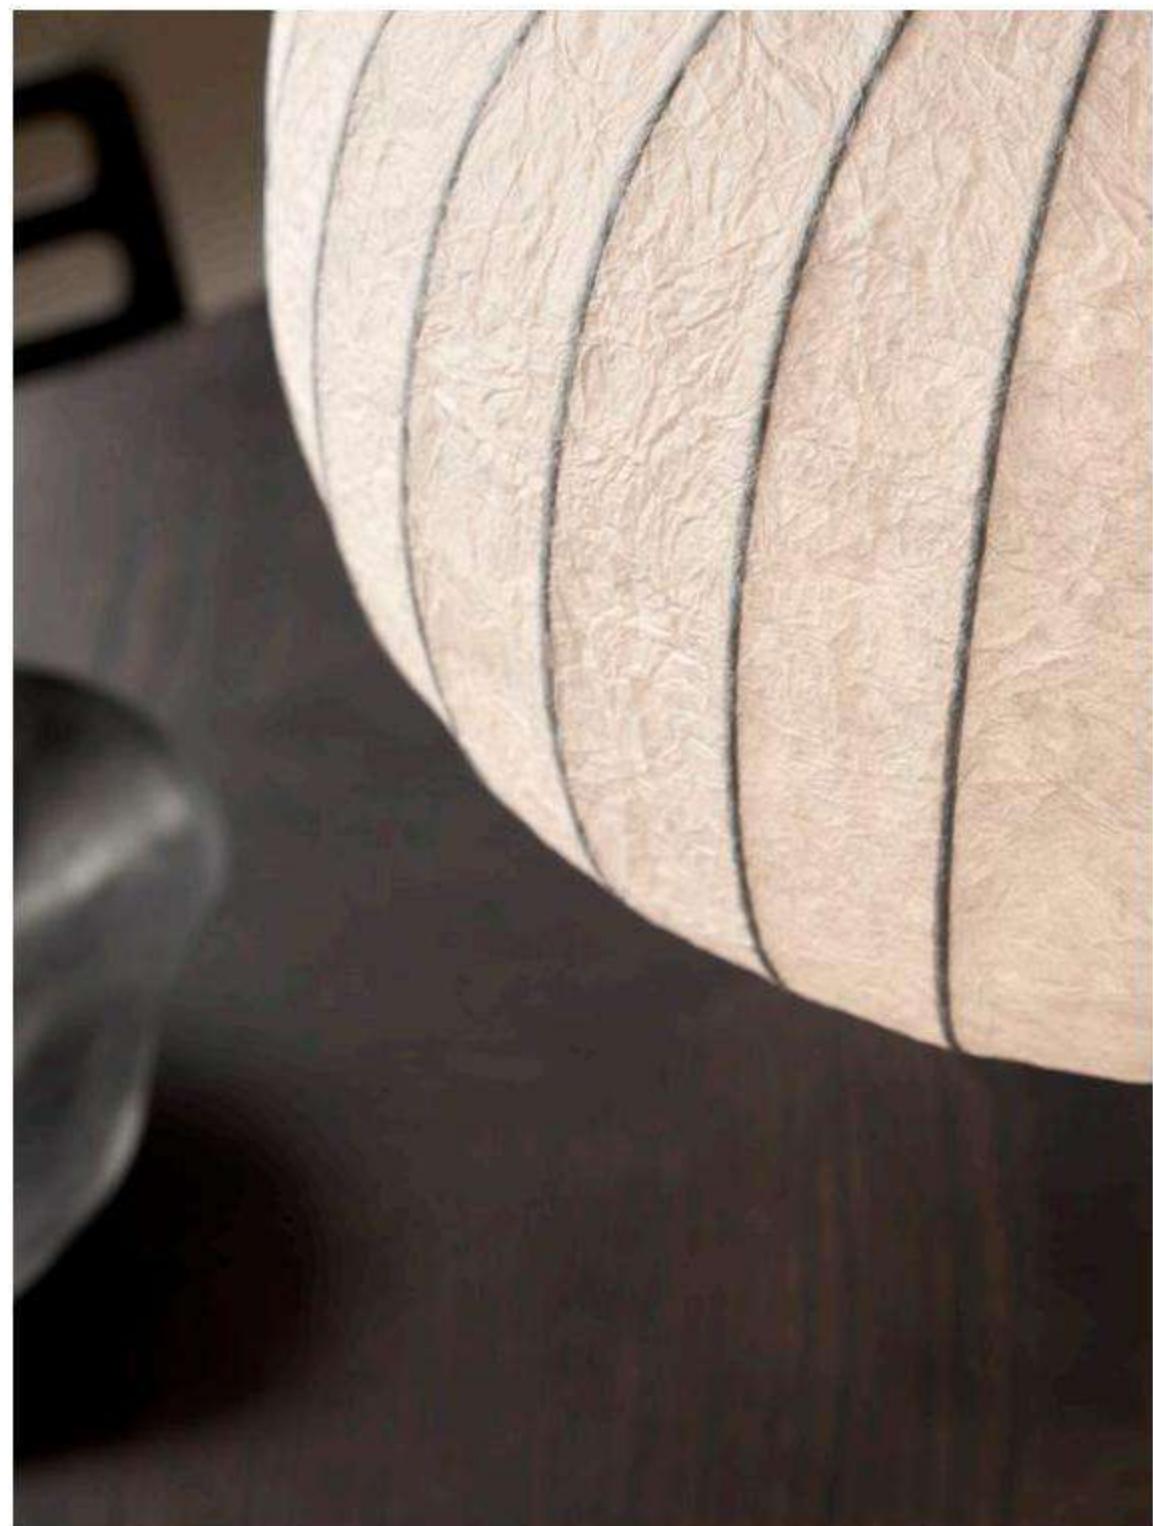

Inspired by Japanese paper lantern traditions, the Vipp Paper floor lamp fuses Asian design craft with a cosy, subdued lighting recognised in the Scandinavian decor. The textured lampshade is carried by a slender tripod of conical, powder-coated aluminum legs, adding solidity to the lightness of the paper lampshade. A power cord internally routes through the three-legged lamp stand for a clean and refined expression.

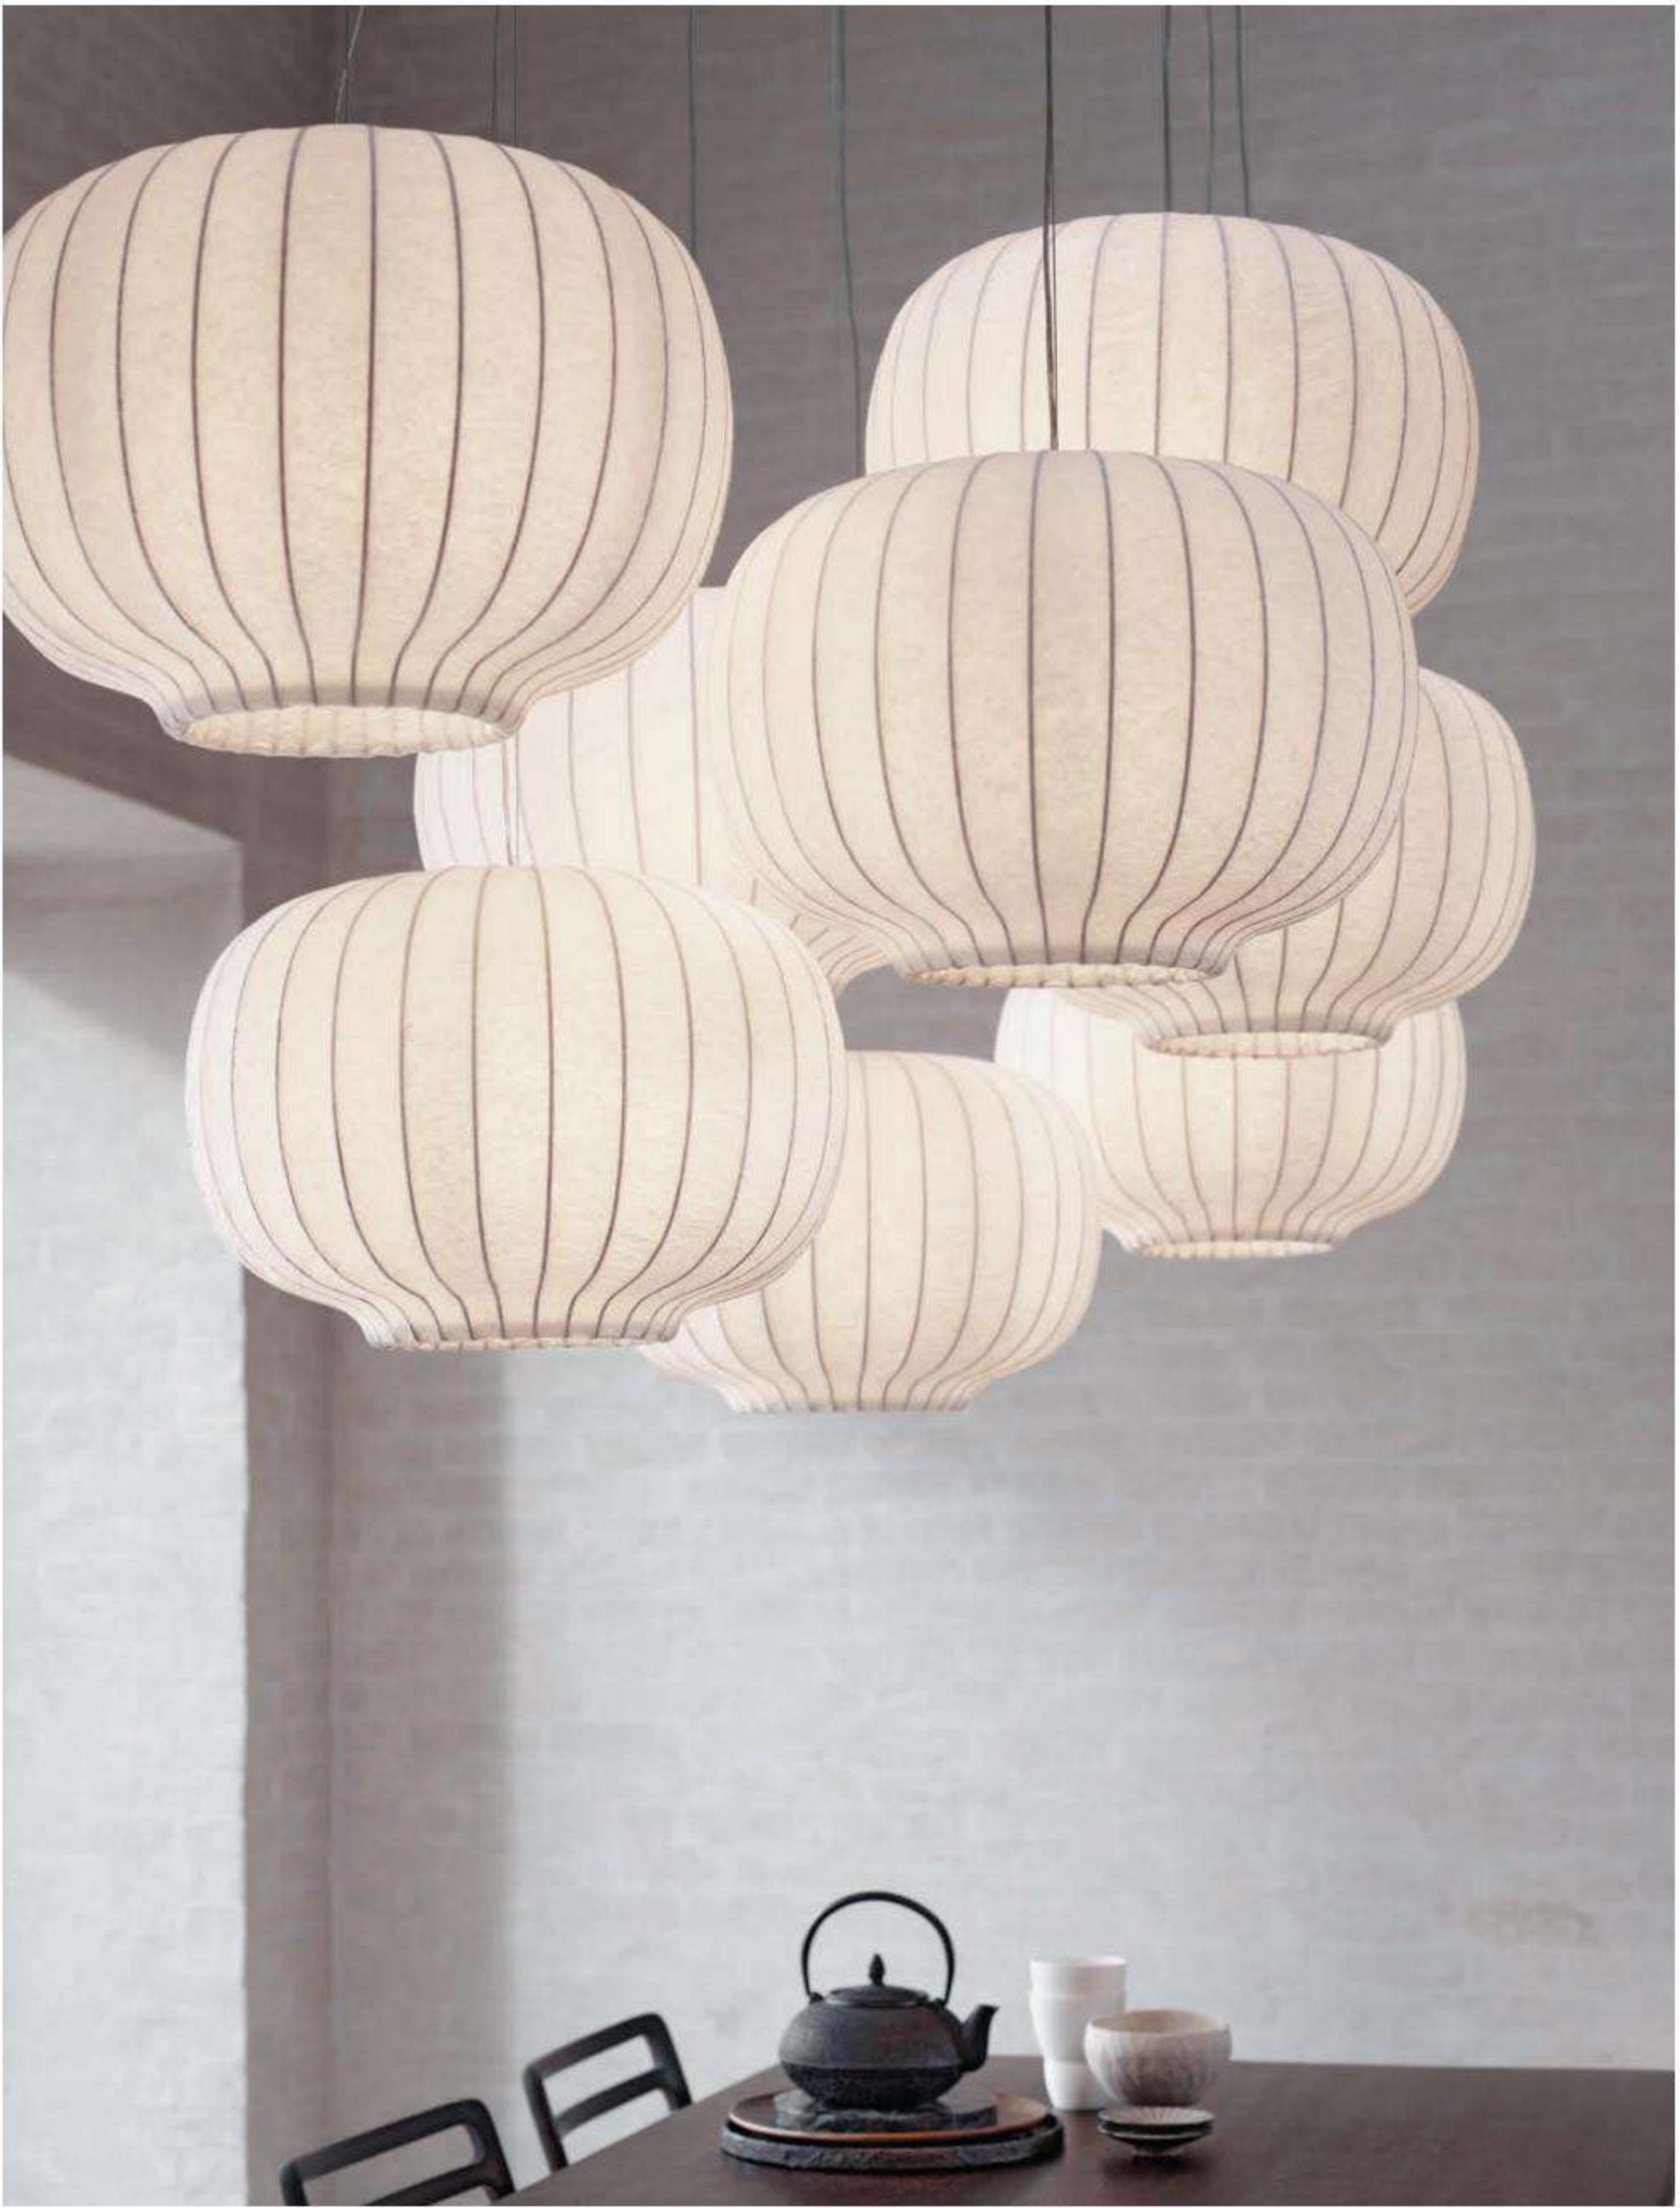

Details p. 131

Paper Pendant

Ancient paper craft methods have been used in the creation of the Paper pendant. The textured surface of the paper lampshade adds a pleasant light diffusion, ideal to illuminate smaller areas in a large space such as the dining table. This pendant features an interior metal grid and is supported by adjustable wires and a transparent cord.

Details p. 132

VIPP591 & VIPP592

Sculpture Table Lamps

The new Sculpture table lamps are named after their sculptural appearance shaped in marble and glass. A durable LED unit is hidden under a three-layer opal glass shade, offering a soft omni light. Integrated into the solid base of grey or white marble is a refined dimmer and switch and fabric covered cord. Available in two sizes.

Details p. 132

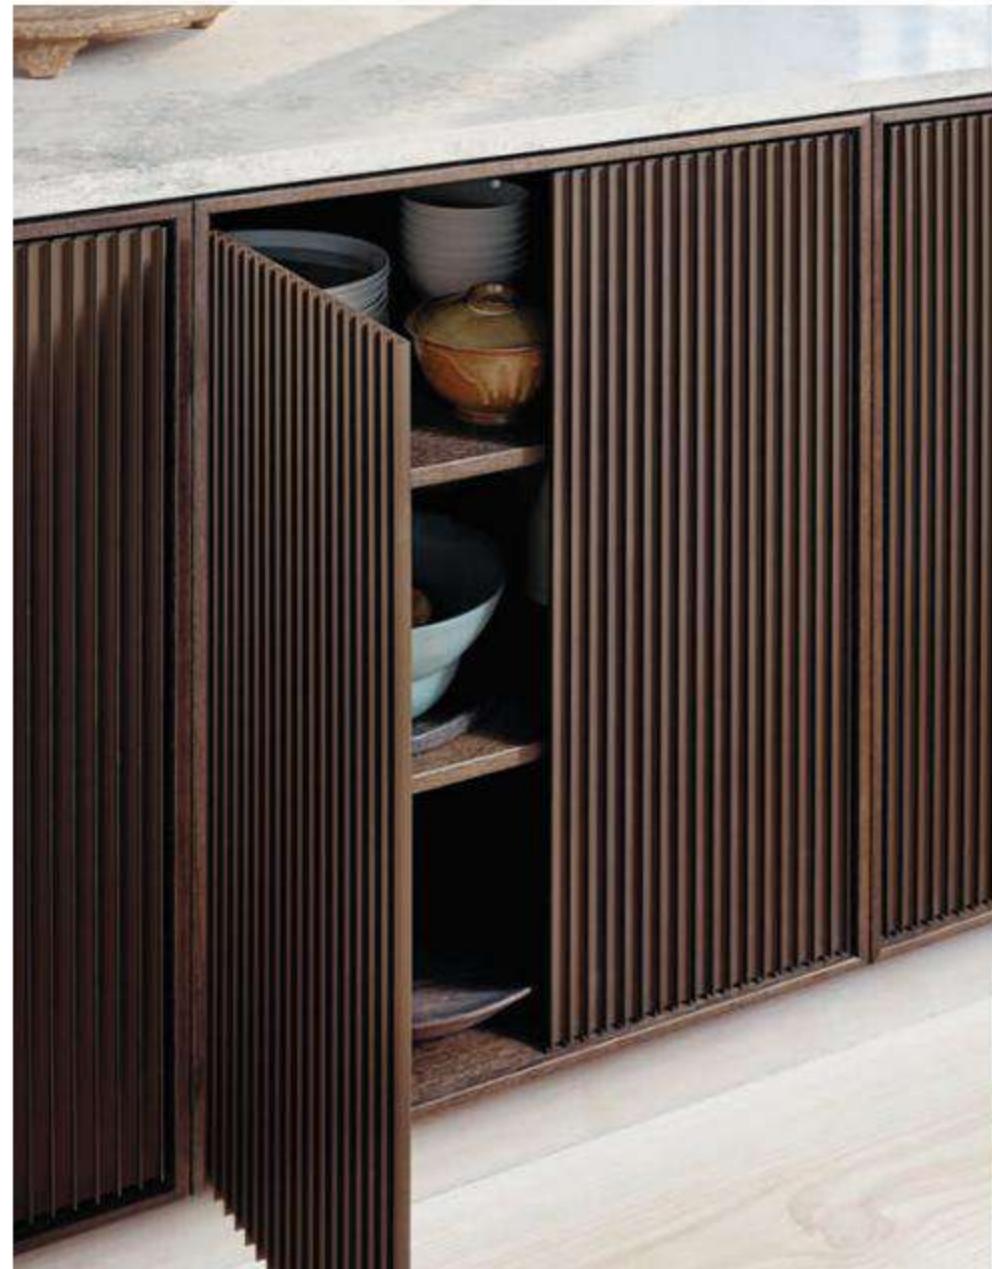

KITCHEN

V1 kitchen · V2 kitchen · Ceramics

In our house, the party always starts and ends in the kitchen. For 10 years we have perfected our very first kitchen system, the V1, and the design principles of high-quality materials and functional detailing that laid the ground for V1 are now repeated in our second kitchen offering, the V2. V2 is a Vipp kitchen wrapped in Mother Nature's materials; dark oak sourced in Europe meets a grau-blau Jura limestone from the Bavarian Alps. While our first kitchen made in steel presented a raw and refined industrial design, the V2 is crafted in wood, stone, glass and metal adding a new organic tactility and materiality to Vipp's kitchen design. The party can begin.

V2 Kitchen

The V2 kitchen is the second kitchen system from Vipp. Bright Jura and dark oak meet in a new design language attuned to Mother Nature's material palette. While stone and oak signify a new material approach, you will recognize Vipp in the use of one of our trademark materials - extruded aluminium. Rounded aluminium profiles with reeded details serve as discreet, integrated drawer and cabinet grips. Apart from cabinet fronts covered in dark oak veneer, reeded glass and anodized aluminium doors apply a playful and refined design element to the V2 kitchen.

V2 Kitchen, Island with seating extension and Tall module
Dark oak, Jura limestone worktop

Vipp484 Cabin Counter Stool
Dark oak, p. 77

V1 Kitchen

ONE DESIGN, FOUR MODULES

Our modular kitchen can be built from four different modules: island-, island with seating-, wall-, and tall module. Whether fitted for open-plan cooking, a classic workstation against the wall or for the need of maximum storage, each module can be composed of up to 10 units. The V1 kitchen is available in three powder-coated colour variants, black, grey and white, with a stainless steel worktop. All appliances are included.

Island and Tall module
Warm grey, stainless steel worktop

Ceramics

The rounded shapes, glazed interior and hand-polished exterior make up the peculiar characteristics of the Vipp ceramic collection consisting of cups, plates, bowls, a pot, and a milk jug. The small collection of simple ceramics is hand-casted in high-quality porcelain.

Details p. 133 - 135

BATHROOM

Bath modules · Accessories

The interior of the bathroom is exposed to numerous challenging components: water, steam, rust, and general tear from everyday use. For many years we have developed and refined the most essential products for the bathroom to operate in this very environment. Our sanitary assortment spans from pedal bins, mirrors, wall-hung accessories, and entire bath modules. Envisioned to be used day after day, year after year. Functionality is the essence of the Vipp bathroom series. The durable materials of stainless steel, silicone, rubber, and organic cotton follow our criteria of longevity and support demands for high hygiene. The simple color range of black, white and stainless steel makes each product easy to match with personal style while adding to the luxury feeling of a home spa.

p. 140

Vipp441 Laundry Basket
p. 142

VIPP981 & VIPP982 & VIPP983

Bath Modules

Rounded corners and a floating tabletop add a soft touch to the clean aesthetic of the bath modules. The bath modules feature 1-4 drawers and are fitted with an integrated sink and a bathroom tap. Available in small, medium or large.

Details p. 143

Bathroom Accessories

The bathroom accessory series offers pedal bins, toilet brushes, hygienic containers, wall-hung accessories, towels, and a laundry basket. The durable materials ensure a long lifetime while the simple colour selection makes the products easy to match with the surrounding environment.

Details p. 142-147

WORKSPACE

Swivel chairs · Racks

Our ideal workspace consists of five essential elements; a large table for unfolding, a flexible chair for comfort, focused lighting, a shelving system to keep order. Whether you spend many or just a few hours at your desk, we find it important that this space fosters creativity and productivity while keeping you focused and comfortable. By combining high functionality, durable materials and clean aesthetics, our selection of office friendly products is made to enhance private as well as public workspaces.

Vipp521 Desk Lamp
p. 81

Vipp452 Swivel Chair
Bosco green leather, aluminium, p. 108

Swivel Chair

Originating from the core design of the Vipp451 chair, this chair shares the same choice of materials; an aluminium frame and leather upholstery. In difference, the seat of the swivel chair rests on a pillar that branches out in a 4-legged base on either wheels or gliders, allowing for a 360° seat rotation. Available with a black aluminium frame and black leather or a polished aluminium frame with sand, green or black leather upholstery.

Details p. 118

Rack

The rack is a modular shelving system. Inspired by the industrial shelving systems of many hobby rooms, the rack is industrially designed with powder-coated steel, aluminium and heat-pressed ceramic shelves.

Details p. 125

Sand leather, aluminium, p. 108

Product index

Upholstery

Soprano 03 – Vipp selection

Soprano 03 is a grey bouclé that gives Vipp sofas a tactile touch. "Bouclé" is French for loops and refers to the small curly loops that grant the fabric its character and softness. Discreet yet full of detail, the Soprano upholstery sets forth a level of uncompromising comfort.

Material

45% cotton, 19% viscose,
15% wool, 13% acrylic,
8% nylon

Martindale

60.000

Elle 220 – Sahco

Elle is a new textile by the premium fabric décor company, Sahco. With nearly two hundred years of experience in the world of textiles, elevated quality is a guarantee. French for 'her' or 'she', Elle is an upholstery that adds femininity, warmth and softness to a Vipp sofa with its heavy bouclé. The large bouclé loops accentuate the three-dimensional character of the fabric while adding depth and thickness.

Material

25% cotton, 20% acrylic,
20% viscose, 20% wool,
15% polyamid

Martindale

70.000

Safire 04 – Sahco

Kvadrat's Safire textile is characterised by a coarse surface structure providing a subtle handwoven appearance as a unique dimension of this upholstery fabric. The combination of thick bouclé and chenille yarns contribute to its woolly feel and soft appeal but also adds a vibrant two-tone effect. Interwoven natural shades of warm grey and off-white hatch a subtle beige colour.

Material

43% viscose, 17% acrylic,
15% new wool, 9% cotton,
8% linen, 8% polyester

Martindale

44.000

Coda 2 232 – Kvadrat

Coda 2 from Kvadrat combines a graphic, textured surface and a sophisticated colour to very lively effect. From a distance it appears monochrome, but when zooming in the pattern reveals a second colour. Made from high-durability wool, Coda 2 232 is woven in two layers, one in light grey and a discreet burgundy layer underneath.

Material

90% new wool, 10% nylon

Martindale

100.000

Saxophone 02 – Dedar

Its twill-structure and chevron pattern make Saxophone a recognizable, graphic fabric that stands out in Vipp's curated upholstery range. Woven in wool, Saxophone is a thick fabric full of refinement and warmth. Ideal in a colder climate, a Vipp sofa in this fabric will provide a warm embrace.

Material

60% wool, 32% cotton,
8% acrylic

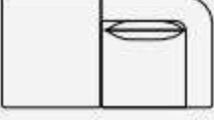

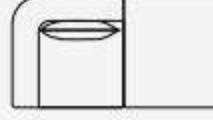

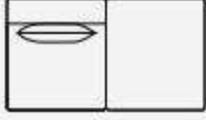

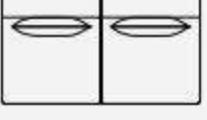

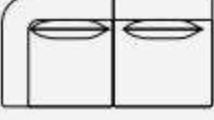

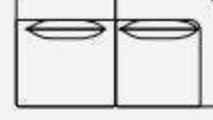

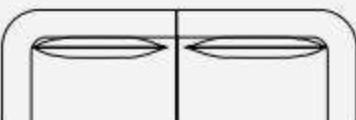

Martindale

40.000
