

Vipp chair armrest cover

The Vipp chair armrest cover is a removable leather sleeve providing additional seating comfort. The tapered design fits accurately on the Vipp chair, and with its Velcro seal it is easy to demount.

CARE INSTRUCTIONS

We recommend caring for the leather to ensure its long-lasting appeal and appearance:

- Avoid exposing the leather to direct sunlight, extreme heat or sharp objects.
- Use a clean, dry cloth to absorb spills.
- Do not use detergents, ammonia, oils, polishes, varnishes etc.
- For thorough cleaning, clean the leather twice a year by using foam from soap flakes.

Please note that the leather may display light colour variations and fade over time.

APPLICATION GUIDE

1. Place the armrest cover on top of the armrest with the soft side of the Velcro turned inwards towards the seat.
2. Fold down the two sides to assemble them, centered on the underside of the armrest. Slide the cover into place by making sure the frontside of the armrest cover is positioned just before the rounding of the armrest.
